some objects hard some easy great play. 10/10 IGN Rates WtF EZ Goings oNZ. It's a cool game, but no one ever plays it, all you will be doing is playing deathmatch with AI.. I wanted to start off by saying the developer is asking for people to review this game. This shows great confidence and the ability to accept constructive feedback is so rare. I would like to play it some more and leave a more detailed review, but for now here is what ive got.

So far this game for its price is great. It has speedrunning potential that is reminiscent to classic games I grew up with as a child. The controls are precise/tight and the challenge involved is well recieved. Armor/ weapons/ stats are a bit plain, however straightforward enough to be reasonable. I will update once I get further in, but so far its an entertaining game.

. Because of my hectic workhours, I didn't speak to my dad in a month.

But after I finished 3/4 of this game, I grabbed my phone and called my dad and talked for a couple hours.

Thank you, Nanali Studios :'). New Motion Pack:

Skin= 5/10

Character Portraits= idk

Lasers= 999/10. Very similar to angry birds. Think badger family in space. It's all about the gravity and your propulsion jets.

Good, but not really original. Get it cheep.. IT IS NOT LETTING ME USE ENGLISH

This game has kept me on my toes and has challenged me to my very peak. I managed to extend my powers of puzzle solving just like in the Frictional Games ... games. I love how it turned out and i can't wait to play more.. Extremley fun game, but there is not many people who have bought the game. **READ THIS AND BUY THEY GAME**, This game has so much potential!. Not worth the full \$15 price, but a great game to pick up when it goes on sale.

Don't set a goal to sit down and beat this game. It isn't that type of experience. This game is great for picking up and playing whenever you have an hour or two to kill.. cool racing game.... A very beautiful soundtrack !
